

St Mary's Catholic Primary School

Our 'Local Offer' for Special Educational Needs and Disability (SEND)

All the teachers in the school are teachers of children with SEND. As such, St Mary's Catholic Primary School adopts a 'whole school' approach to SEND which involves all the staff adhering to a model of good practice. The staff of the school are committed to identifying and providing for the needs of all children in a wholly inclusive environment. Inclusion is regarded as crucial.

The school operates an equal opportunities policy for children with SEND, affording them the same rights as other children. This includes both those children with Statements of SEND (or Education, Health and Care Plans – EHCPs) and those others with less severe problems. Please refer to the Gender and Disability Equality Policy.

The school aims to identify, support and provide for pupils with SEND and additional needs as early as possible, and encourages such pupils to develop their confidence and build their self-esteem. The school aims to provide appropriate support, advice and training for all staff.

The school will provide 'reasonable adjustment' for children with medical conditions and disability, but these alone do not constitute SEN.
